TARRAGINDI DIG - COURSE OVERVIEW

In this program, you will participate in a real archaeological dig. You will learn how archaeologists conduct a dig, identify, clean, and date artifacts, and catalog and record their findings. You are going to dig like the pros, and you may uncover some amazing history from our own local area.

We will be digging on a piece of land in Berrien Springs that began as a farm nearly 200 years ago. Over this time, the owners created what is called a “Farmer’s Dump” - an archaeologist’s treasure trove of local artifacts from Berrien County’s past. Our most significant find to date is a coin from 1780 – an Austrian “Maria Theresa” Thaler coin – and was used in the USA before the Federal monetary system was established.

A parent, grandparent, or guardian is welcome to accompany you. Friends or siblings must be registered for this class with the parent partnership to participate.

Dr Jan Sigvartsen also operates Berrien Springs Parent Partnership and Niles Virtual School classes:

1. Archaeology Dig – Tarragindi
2. Archaeology Dig – Old Jailhouse (10-19 year olds only)
3. Archaeology Plus – Long Lake Cemetery Restoration Project
4. Historic Photography
5. Historic Court Trials
6. Board Gaming Eurogames

CLASS TIMES

Due to weather constraints, our classes are longer, but only operate for 8 weeks during the semester. As such, every hour of programming constitutes one class for a total of 18 hours or 18 classes.

- Tuesday, 4pm – 6.30pm
- Wednesday, 10am – 12.30pm
- Thursday, 4pm – 6.30pm
- Friday, 10am – 12.30pm

ARTIFACTS

All artifacts found at the site remain the property of the property owner who has expressed an intention to donate items of historical importance to the Berrien Springs History Center, crediting the student/s for the find. Other items will be displayed in local township offices and libraries.

The property owner may generously allow students to keep some items of non-historic importance, but only if the student has Leanne Sigvartsen’s permission first, and these items are not sold or profited from. Dr Jan Sigvartsen PhD and the Berrien Springs History Center will determine what is historically important, and their decision is final.

SAFETY

Archaeology is a lot of fun and very rewarding, especially when you make a significant find. However, it is not without risks, even though they occur very rarely. We will take all precautions to ensure your safety, but consistent with archaeological digs, all participants will be required to sign a waiver.

Please remember that the dig site is private property and you or anyone you know is not to enter the site outside of class hours or when Dr Jan Sigvartsen (Dig Site Director) is not there. Please do not remove any items, tools, flora, fungi, or fauna from the Tarragindi site. Please respect the neighbors' right to privacy and peace by not entering their properties and only parking in the designated areas.

YOUR PROJECT

Research an artifact and try to find an answer to: what was it used for, when was it made in this style, is the manufacturer still in business, do they still make that product, and how has this product changed over time? Is the product still used or has it been replaced with a new invention or technology?

ABOUT YOUR INSTRUCTORS

Jan Sigvartsen PhD (Dr Jan) has taught Archaeology and Ancient Religion classes at Andrews University, Michigan, and the Theologische Hochschule Friedensau, Germany, where he was also their PhD Programs Coordinator and Associate Director of their Institute of Biblical Studies and Archaeology. He has participated in archaeological digs in the USA and the Hashemite Kingdom of Jordan. He has traveled extensively to historic sites globally and has lived in Israel, Norway, England, Germany, Australia, and the United States. Dr Sigvartsen exceeds the [Secretary of the Interior's Standards and Guidelines for Archeology and Historic Preservation and Professional Qualifications Standards as stipulated in the Code of Federal Regulations, 36 CFR Part 61.](#)

Leanne Sigvartsen (Ms Leanne) originally trained as a psychologist in Australia and spent many years as a counselor and academic advisor for teens and young adults. She then transitioned to research project management, working on a number of projects, most recently as the Research and Special Projects Director at the Chicago-based *Center for Collaborative Study of Trauma, Health Equity, and Neurobiology*. She is a triple citizen of the United States, Australia, and Malta, and has lived in the United States, Australia, and Germany. She wants to see young people succeed, be happy, and grow into thriving adults in a community that they feel connected to and valued by - especially those who have experienced trauma, bullying, and adverse childhood experiences.
